Subject: Fw: Lithium Reanalysis Revised Memos - Dimock

Joanna -

Attached below are 20 final tox memos related to the re-analysis of lithium.

The first memo below addresses all the wells without hits above the screening level. The other 19 (in attached e-mail are for individual residences with screening level exceedances. The memo should be included in the residential data packages.

Thanks - Kelley

Hi, Kelley. Attached are revised memos for the lithium re-analysis. I modified these memos slightly from the previous version, primarily to include Hazard Quotient calculations. Let me know if you have any questions. Thanks.

Dawn
